

# QUESTIONS TO ASK BEFORE YOUR PROCEDURE

## REMEMBER TO TAKE NOTES!

We all forget **80%** of what we hear from our doctor. To help remember important information, use the back of this sheet for notes or take notes on your smartphone.

## ASK YOUR HEALTH CARE PROVIDER THESE QUESTIONS:

- Do I need this procedure?
- Are there other treatment options?
- What are the side effects, complications, or risks that I should be aware of?
- How long and what does my recovery process look like?
- Does my insurance plan cover this procedure?
- Will it be inpatient or outpatient?

## ASK A FRIEND, A CAREGIVER, OR A PATIENT ADVOCATE TO GO WITH YOU TO BE A SECOND SET OF EARS.
